Full Stack Developer

EXPERIENCE

(Nov 2015 – Feb 2016)

Software Developer

BrainCo Inc

This position is responsible for development of web, server, desktop app and iOS app. Based on requirements of scalability and reusability, I use **NodeJS, MongoDB, ExpressJS, AngularJS and Bootstrap** to develop web and rest API service as MEAN structure in **Linux**, use **python** and relevant packages (numpy, scipy, and pyqt) for desktop app, and **Objective-c** for iOS app.

(July 2015 – Aug 2015)

Intern

World Health Organization

This position in ACT department assists colleagues in maintaining data accuracy. Because of Excel is the major tool in ACT, **Excel VBA** is preferred for checking data. I develop a dynamic website using **JavaScript** for meeting colleagues' needs of searching files, and use **R** to help other colleagues to clean research data.

(July 2011 – Aug 2013)

Intranet manager

ChengYang People Hospital

In this position, my major job is routine server and internet management. The website is developed on ASP.NET, so I maintain **MS Server 2008** and **IIS**.

EDUCATION

(2014 – 2016)

Certification of Information Technology Solutions

Humber College

This program taught software development, enterprise development and computer programming skills.

(2007 - 2011)

Bachelor of Computer Science and Technology

University of Science and Technology in ShanDong

I learn knowledge about computer science, theory and programming technique in this program.
